TITLE INDEX

A review of the costs and effectiveness of assessing the elderly in general practice (R T McEwan and D P Forster) 55
A study of the referral decision in general practice (A Evans) . 104
A study of respiratory infections in a healthy adult population during the 1987 Australian winter (G A Tannock, A L A Reid, S M Gillett, R Herd, R S Gillett, M J Hensley, R D Barry, I P A Lawrance, J Nichols, M Adams, R L Henry and N A Saunders) 378
Abdominal pain in general practice (J W M Muris, R Starmans, G H Fiften, H F J M Crebolder, T F W A Krebber and J A Knottnerus) 387
An analysis of review articles published in primary care journals (C A Silagy) 337
An international perspective on the cholesterol debate (W W Rosser, W H Palmer, G Fowler, H Lamberts, A Thomson, C Lam and P S Frame) 430

Bacterial flora in patients presenting with sore throats in Dutch general practice (C F Dagnelie, F W M M Touw-Otten, M M Kuyvenhoven and M Rozenberg-Arska) 371
Barriers to general practitioners caring for patients with HIV/AIDS (A E Clarke) 8
Benzodiazepine prescribing in a community in crisis (M Herz) 317

Characterization of registered clinic patients who have not visited their family physician for 3 years (Y Fogelman, H Tabenkin, R Weiss and A Tamir) 46
Childhood chicken pox: its impact on child and family (S M Hunt and S P McKenna) 19
Conference report: teaching old docs new tricks: research dissemination and professional behavioural change (R Jones and J Spencer) 229
Coronary heart disease prevention: the role of the general practitioner (M Calnan and S Williams) 137
Counselling patients to make life-style changes: the role of physician self-efficacy, training and beliefs about causes (S C Thompson, L Schwankovsky and J Pitts) 70

Diabetes and its long-term complications in general practice: a survey in a well-defined population (K Reenders, E de Nobel, H J M van den Hoogen, G E H M Rutten and C van Weel) 169
Double-contrast barium enema versus colonoscopy in the diagnosis of neoplastic disorders: aspects of decision-making in general practice (S Steine, A Stordahl, O C Lunde, K Løken and L Laerum) 288
Dry chemistry instruments in primary care. I. Operating conditions (G Thue, S Sandberg, E Bratberg, A E Risa and T E Olsen) 124
Dry chemistry instruments in primary care. II. Comparison of users with non-users (G Thue and S Sandberg) 131

Electronic publishing (R Jones and K Hunter) 102
Expectations disease: a model for understanding stress, control and dependent behaviour (S H Frank) 23

Factor analysis as a tool in primary care research (A G Mainous III) 330
Factors affecting general practitioners recruitment of patients into a prospective study (V Peto, A Coulter and A Bond) ... 207
Family practice in Cuba: evolution into the 1990s (R Y Demers, S Kemble, M Orris and P Orris) 164

General practitioners' strategies and tactics of communication with the terminally ill (C Todd and A Still) 268

HIV infection and Norwegian general practitioners: does fear affect knowledge? (P Voltersvik, J Rise and E Laerum) 1
How patients look at drug therapy: consequences for therapy negotiations in medical consultations (P M Verbeek-Heida) 326

In search of excellence. Expanding the patient-centred clinical method: a three-stage assessment (G S Fehrsen and R J Henbest) 49
Influencing diagnostic and preventive performance in ambulatory care by feedback and reminders. A review (F Buntinx, R Winkens, R Grol and J A Knottnerus) 219
Implementation of the national cervical cancer screening in general practice and feasibility of a general practice-based call system: the GP's opinion (B T H M Palm, A C Kant, W J H M van den Bosch, C W B de Beijer, M E J Gerrits and C van Weel) 173
Improving the response rates in primary care research. Some methods used in a survey on stress in general practice since the New Contract (1990) (S Myerson) 342
Is there a relationship between a mother's mental state and consulting the doctor by the family? A study in a military general practice (J Leach, L Ridsdale and N Smeeton) 305

Loss of function in patients with acute low-back pain (J Szecsenyi, J-P Vogelsang and M M Kochen) 323

Measuring functional status in a population survey. The Dartmouth COOP functional health assessment charts/WONCA used in an epidemiological study (D Bruusgaard, I Neesiøy, O Rutle, K Furuseth and B Natuig) 212

Medicine which liberates (T Kennedy) 361
Mortality rates in a cardiovascular 'low risk' population in rural Crete (C D Lionis, A D Koutis, N Antonakis, A Isacsson, L H Lindholm and M Fioretos) 300

Non-attendance at outpatient clinics: is it related to the referral process? (M Lloyd, C Bradford and S Webb) 111

Opportunistic screening for hypercholesterolaemia: characterization of two different drop-out groups and status after 2 years (I Ovhed, H Odeberg and L Råstam) 439

Patient and general practitioner perceptions of patient-held health records (S T Liaw) 406
Prescription of antibiotics and prescribers' characteristics. A study into prescription of antibiotics in upper respiratory tract infections in general practice (M Kuyvenhoven, R de Melker and K van der Velden) 366
Prevalence of hearing impairment and hearing complaints in older adults: a study in general practice (B B Abutan, A W Hoes, C L van Dalsen, J Verschuure and A Prins) 391
Prevention: the big question (R Jones) 259
Primary health care in the United Arab Emirates (A Bener, S Abdullah and J C Murdoch) 444
Problems related to alcohol consumption in primary health care: prevalence and clinical profile (F Escobar, F Espi and M Canteras) 424

Selections from current literature: issues in the management of vaginitis (J R Baron and R B Kelly) 459
Selections from current literature: psychiatric disorders in primary care (P J Bowers) 231
Selections from current literature: using aspirin for primary or secondary prevention (R Kelly) 88
Self-report depression scales for elderly patients in primary care: a preliminary study (H van Marwijk, I Arnold, J Bonnema and A Kaptein) 63
Service delivery for people with chronic fatigue syndrome: a pilot action research study (H Denz-Penhey and J Campbell Murdoch) 14
SFAT-AM Short Family Therapy in Ambulatory Medicine. Treatment approach in 10–15 minute encounters (I Eshet, A Margalit and G Almagor) 178
Shared understanding of the qualitative research process. Guidelines for the medical researcher (K Malterud) 201
Smoking habits in early pregnancy related to age of smoking debut (K Haug, L E Aarø and P Fugelli) 66
Socio-economic factors, health care consumption and rating of abdominal symptom severity. A report from the abdominal symptom study (L Agréus) 152
Stories from the sealed rooms: patient interviews during the Gulf War (J Borkan, P Shvartzman, S Reis and A G Morris) 188

Stuck with the patient—what would my colleague have done? A videorecorded consultation experiment with an actor simulating as the same patient for different doctors (I Aaraas, S Lundevall, I Njølstad and H Melbye) 43

The Cochrane Collaboration in primary health care (C Silagy and T Lancaster) 364
The concepts of successful and positive ageing (A Bowling) ... 449
The development of general practice in China (M-C Lee, E Y T Yen and M-C Chou) 292
The diagnostic value of rectal examination (J W M Muris, R Starmans, G G M C Wolfs, P Pop and J A Knottnerus) 34
The editorial business (R Jones) 101
The impact of a mass communications campaign on the reported management of asthma by general practitioners (M Tse, C Bridges-Webb and A Bauman) 263
The incidence and outcome of rectal bleeding in general practice (G H Fijten, J W M Muris, R Starmans, J A Knottnerus, G H Blijham and T F W A Krebber) 283
The influence of a desk-top analyser on the number of laboratory tests used in daily general practice. A randomized controlled study (C Gilio, F Buntinx, O de Kezel and I Scheys) 118
The influence of workload on the mental state of the primary health care physician (P Orozco and E Garcia) 277
The inventory to diagnose depression (IDD) in primary care patients (J Froom and D Hermoni) 312
The involvement of general practitioners in the care of patients with human immunodeficiency virus infection: current practice and future implications (J Sheldon, E Murray, A Johnson and A Haines) 395
The need for another look at the patient in general practice satisfaction surveys (J L Hopton, J G R Howie and A M D Porter) 82
The nominal group technique: a research tool for general practice? (M Gallagher, T Hares, J Spencer, C Bradshaw and I Webb) 76
The patient's family history: a key to the physician's understanding of patient's fears (A Brorsson and L Råstam) 197
The twin epidemics of substance use and HIV: a state-level response using a train-the-trainer model (L L Gabel and J A Pearsol) 399
The use of a computer-assisted telephone interview technique in a general practice research study (D Harris, J Grimshaw, J Lemon, I T Russell and R Taylor) 454

What should doctors do if they become sick (R M Chambers) 416
Why do mothers consult when their children cough? (C S Cornford, M Morgan and L Ridsdale) 193
Withdrawing long-term diuretic treatment among elderly patients in general practice (J Straand, P Fugelli and K Laake) 38
